

AGM DEEP CYCLE RECHARGEABLE 12V/120Ah BATTERY

- High efficiency, high frequency switched mode design
- No fan / no noise which means no moving parts to fail, ever!
- Suits Lead Acid, Calcium, AGM and Gel Batteries
- LED display shows charging status
- Heavy duty cables with Crocodile Clip Connectors and a Wall Mount Bracket also included

Oz Charge® AGM batteries have been well proven in arduous deep-cycle applications such as wheelchairs, scooters, golf-carts, floor-scrubbers as well as solar. They are also ideal for high reliability engine start applications such as boats and race cars.

OCB-120-12	FEATURES AND SPECIFICATIONS		CAPACITY Ampere Hour (Ah)		RESERVE CAPACITY Minutes Discharged	
	Nominal voltage	12V	C1	66	75A	50
	Cyclic voltage	14.1 - 14.4V (25° C)	C3	80.7	25A	193
	Float voltage	13.6 - 13.8V (25°C)	C5	88	20A	259
	Terminal type	M8	C10	98.2	15A	372
	Weight	32.5 Kg	C20	107	8A	769
	Dimensions	329 (L) x 173 (W) x 209 (H) mm	C100	122		
	CCA / MCA	577A (-18°C) / 804A (0°C)				
	Short Circuit Current	1350A				

SICK OF BATTERIES THAT LEAVE YOU UP THE CREEK?

A significant number of AGM batteries sold today are nothing more than a conventional standby/backup battery with the words "Deep Cycle" or "DC" slapped on.

After years of R&D we are proud to announce the availability of our own Oz Charge® range of AGM batteries, made with a dedicated cyclic plate design that keeps working long after others are on the scrap heap, and unlike Calcium batteries they emit no dangerous gas so they can be installed in the boot or indoors of a caravan without health or explosion risks.

You can **EXTEND THE LIFE OF YOUR BATTERY** by using a compatible Oz Charge® Battery Charger & Maintainer.

12 MONTH WARRANTY THROUGHOUT AUSTRALIA
